Exploring leadership, agility and diversity at Relocate's Festival

“When executives and families are required to leave their homes and relocate to a new city or country like Mexico for an extended period of time, they want to feel safe and at home, with all the comforts they need, and surrounded as if by family and friends,” said Alejandra Quintero Oria, co-founder of Dominion. “We understand our guest’s specific requirements and we strive to deliver those to them every day – from choosing the location of our properties, to the size and design of our suites, to the personalised services we offer.”

Aldonza Ramirez Mayans, co-founder of Dominion, said, “Serving as a guest’s home away from home is a privilege for us and a responsibility we live up to each day. “It’s what we do best, and it’s what we believe will continue to make us stand out from the competition as the extended stay segment continues to grow.”

“The number of enquiries for relocation to Mexico City have increased steadily. That is because Mexico offers the perfect mix of old traditions and contemporary lifestyles”, says Pabell Alvarez, sales director. “Corporate housing in Mexico City has been the perfect solution for business travellers, however in the most recent years, Corporate housing serves as the most suitable option for all travellers in need of a temporary home”.
